**Subject:** RE: Wastewater disposal information for Investigative Order R4-2015-0428

Adam,

In response to your email see the following:

1. Sanitation permit # is 14740. ET operates one facility.
2. Volumes reported to Sanitation last year was 340952 BBLs. This is Sanitations fiscal year from 7-2014 through 6-2015
3. The water is measured by and district approved sonic device and recorder. The devise is calibrated annually.
4. There are no other disposal methods.
5. As your spread sheet indicates E & T operates 16 idle or producing wells. Again this is the only facility in which E & T operates.

Please feel free to contact me if you have any further questions @ 562-439-9141

**Subject:** Wastewater disposal information for Investigative Order R4-2015-0428

Mr. David Dalmann,

Thank you for your response regarding Investigative Order R4-2015-0428. After receiving your response and verifying the information on DOGGR's website, I've found the following:

- E&T LLC operates fifteen (15) wells, designated as active and inactive.
- For 2015, E&T LLC produced a cumulative total of **334,143 bbls** disposed through the sanitation district.
- There are no DOGGR records indicating wastewater injection.

As a follow up to your response, please provide the following for further clarification:

- Permit numbers and the respective sanitation district the wastewater is disposed into for each lease operated.
- Verify volumes disposed into the sanitation districts. Volumes are provided in the excel spreadsheet attached to this email. The volumes were obtained from DOGGR's database.
- Provide method for obtaining volumes if different from the numbers obtained from DOGGR (e.g. metered flow rates)
- Any other waste disposition methods that were not previously mentioned (e.g. waste manifest tickets from vac truck disposal, 3<sup>rd</sup> party operators)
- Verify total amount of wells currently operated by E&T LLC and associated companies.

Please kindly provide a response by April 10<sup>th</sup>, 2016. If you have any questions, please feel free to contact me.

Thank you,

**Adam Taing**
